EXHIBITS FOR THE REAL WORLD

We offer a complete line of high quality, easy-to-use, and affordable portable display products for trade shows, point of purchase, marketing, advertising, events, presentations and displays. Our full line of portable display products are designed with one thing in mind—to allow you to effectively and conveniently place your marketing message in front of your prospects and customers.

Made in the USA

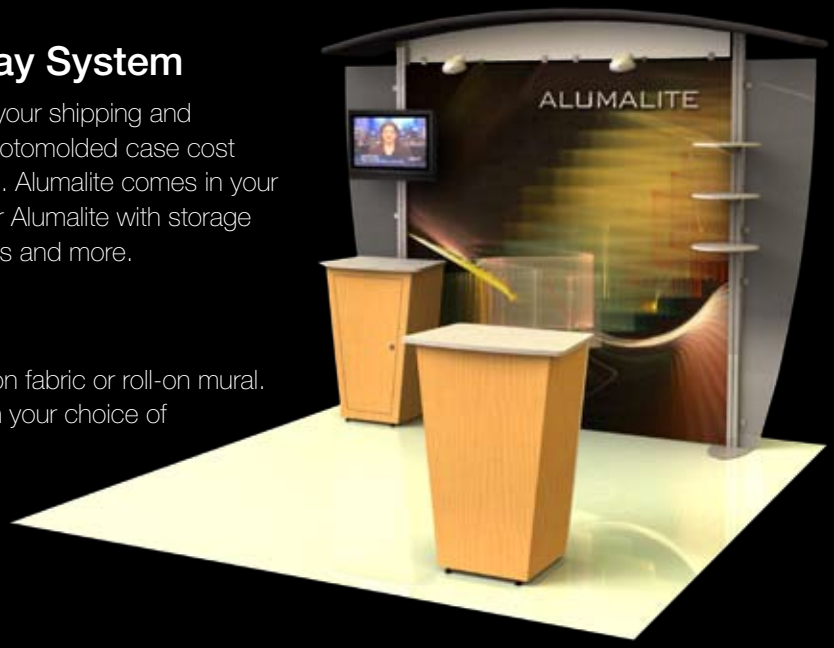
ALUMALITE | page 14

New for 2008: Alumalite Hybrid Display System

Upgrade to Alumalite: Raise your brand image while lowering your shipping and installation costs. Alumalite's lightweight aluminum frame and rotomolded case cost less to ship, and it assembles in a snap to reduce set-up time. Alumalite comes in your choice of three canopy shapes in three colors. Add on to your Alumalite with storage cabinets, reception counters, product shelves, monitor mounts and more.

Alumalite Features and Options include:

- Available in both 10 x10 and 10 x 20 inline configurations
- Large scale center graphic panels, available in printed tension fabric or roll-on mural.
- Arc, Wave or Straight canopies, with tension fabric covers in your choice of silver, black or white.
- Optional accessories include counters with locking storage, product shelving, monitor mounts, lights, backlit headers and literature racks.



BANNERSTANDS | page 16-17

The Supreme Retractable Bannerstand

Our most popular bannerstand, Supreme has all the features you need to make your exhibit a success.

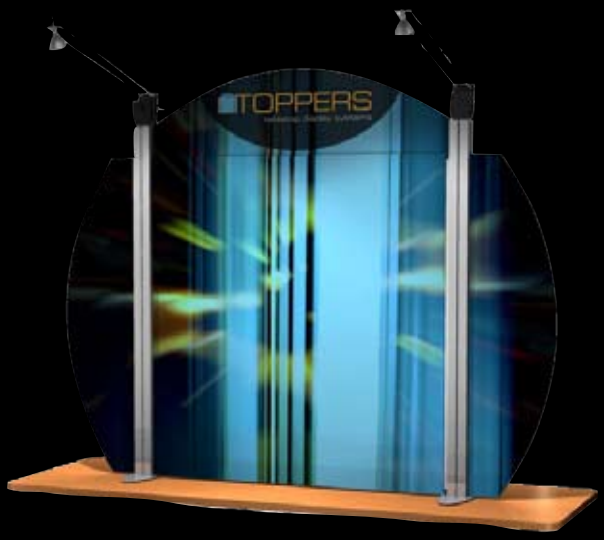
- Comes complete with sleek metal base, slot-in graphic, 3-parted pole and carrying case.
- Change your graphic quickly and easily.
- Includes a StayFlat 1200dpi graphic for bold messages on the show floor.
- Optional accessories include telescopic pole and a banner light.

TOPPERS | page 11

Say Hello to Toppers.

Step Up From an Ordinary Tabletop to Toppers – Big Display Impact in a Small Space.

- A complete package that includes display frame, graphics, lights and case for one low price.
- Available in six modern shapes to project your message in a big way.
- Modular design allows you to change graphics and shapes in seconds.
- Made in the USA, with a lifetime frame warranty.



Made in the USA

POP-UP DISPLAYS

Fabric pop-up displays set-up quickly and easily, and are perfect for making a good impression on a budget. All of our pop-ups are made in the USA and come with a limited lifetime frame warranty. These display packages come with everything you need: a sturdy display frame, panels in your choice of 54 fabric colors, and a rugged, lightweight rotomolded case with a podium conversion kit. Many packages also include UL approved light kits. *Package shown with optional monitor mount.*

*Economy Packages offer curved profiles, and are available in both floor-standing and tabletop models. Economy frames are constructed from 8mm drawn aluminum, and come with a limited lifetime warranty.

Our premium packages offer a sturdier frame that is constructed of both 8mm and 13mm drawn aluminum. These floor standing models are available in a variety of shapes and sizes, including curved, straight and wave.

Graphic panels can be added to any of our packages below. Please refer to page 9 to see our packages that come pre configured with graphic panels.

POP-UP PACKAGE OPTIONS
- Graphic mural panels
- Graphic case wrap
- Backlit header packages
- Las Vegas approved lighting
- Shelving packages
- Monitor mount kits

GRAPHIC POP-UP DISPLAYS

Customize your pop-up display with high-quality graphics. We print all of our graphic panels in house on state-of-the-art HP printers, and then assemble every unit for quality control before it ships. You can be assured that everything fits perfectly, because we know that the last thing you need to worry about on the show floor is your exhibit.

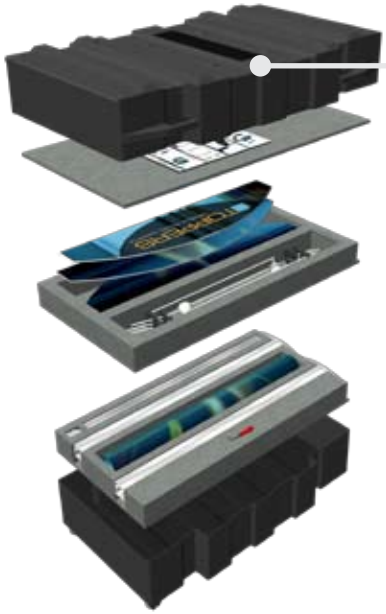
TOPPERS

Big display impact in a very small space...

Toppers broadcast your message in a big way. These ultramodern tabletop systems are built of aircraft grade aluminum, and feature a large footprint for stability. Each Toppers display comes complete with the frame, graphics, headers and wings, lights and a wheeled rotomolded case. Toppers set-up and break down in minutes, and everything packs neatly inside the foam-fitted rotomolded wheeled case. Toppers are made in the USA, and are backed by a limited lifetime frame warranty.



Packing System

Every Toppers display comes complete with a rotomolded, wheeled case for easy transportation. Each part of your Toppers has a unique location within the custom foam fitted case, to make finding each part a snap. The lightweight, heavy-duty case will protect your Topper while reducing shipping and handling weight. Toppers cases can be shipped FedEx or UPS, or checked in as airline luggage.

TOPPERS

All Toppers packages include Octanorm Frame, Center Graphic, Header and Wing graphic, (2) 200watt Halogen Lights, 5PCC case and QuickStart Instructions.

FABRIC PANEL SYSTEMS

Our panel systems are engineered to take anything the most grueling trade show schedule can dish out. Reinforced hardwood frames covered in your choice of fabric provide maximum durability while the patented hinged panels let you create unique custom shapes for dramatic trade show booth effects that are easy to set up and reconfigure.

Our trade show panel systems let you add bridges, towers and backlit headers that are sure to get you noticed on the trade show floor. A huge selection of trade show booth accessories are available to tailor your trade show exhibit to meet your unique marketing needs including lightboxes, product display cases, monitor stands, pull out keyboard shelves and more.

Shown with optional graphics.

LAMINATE PANEL SYSTEMS

Encompassing an unparalleled selection of components, features and accessories, our laminate panel systems meld precision engineering with the highest quality materials. Select from our standard laminates including faux marble and exotic wood for a look as unique as you are.

Laminate systems are available in both 10x10 and 10x20 configurations, and offer a variety of options in product display counters, alcoves, storage and headers. Options include lightbox graphics and slatwall for product merchandising.

All of our panel systems come complete with rugged, lightweight shipping cases that stand up to any grueling exhibit schedule while reducing shipping weight.

ALUMALITE

Alumalite is the portable modular display system that raises your brand image while lowering your shipping and install/dismantle costs. An entire Alumalite system can be assembled quickly and easily, and weighs less than 200 lbs. with cases. An incredible 81" wide by 84" high central graphics area blocks the view of whatever is behind you. Graphics are available in your choice of either dye sublimation printed tension fabric or roll on graphic mural. Choose from three available canopy shapes: Wave, Arch or Straight, in three colors: Snow, Coal or Silver. Wings are available in frosted plex, standard laminates or custom laminates. The optional counter is available as an attached or free-standing unit, and features room for a computer workstation, removable shelving and lockable storage.

FABRIC SWATCHES

We offer the following 53 color options for your trade show products. Use the color names below when placing your order. Next day delivery is available for Imperial, Silver and Coal fabric colors only. All next day requests must be made before 10:00 AM PST.

LAMINATE SWATCHES

FILE PREP GUIDELINES

We DO NOT accept files submitted in Quark or InDesign. Please create all layouts as one document, (do not separate the designs panel by panel). Whenever possible, please include a low res JPEG or PDF for proofing.

Photoshop 6, 7 or CS

This is the preferred application for supplying high resolution raster images. All files submitted as a Photoshop file should be at a 100% (full scale), in CMYK mode, 100-150dpi (dots per inch), or half size at 250-300dpi. Work in proportion if graphic size is larger than art board size. For example if graphic is 30 x 90 , work half size at 15 x 45 . Rasterized font layers then save as a flattened tiff file with LZW compression (this window appears as you save your document). Please include the file extension in the name.

Illustrator 8, 9, 10 or CS

This is the preferred application for supplying layouts and vector art with maximum compatibility and flexibility. Please supply all Illustrator files in CMYK mode, all text MUST be converted into outlines. The file should be to scale, half scale is also acceptable. All raster images must be linked tiff files (NOT EMBEDDED) and created to Photoshop specifications. Provide all logos and text within the application wherever possible. Please include the file extension in the name.

Graphics Color & Proofs

Unless a printed proof is requested and/or is provided, you waive the right to object to the colors printed. There will be no guarantee that colors will be printed to your expectations. Remember, since all monitors are not calibrated alike, we have nothing to compare your digital file to. We print to our best judgement, unless a proof is provided or requested. Critical Pantone colors should be called out if your job is color sensitive. Remember, a PDF proof only provides us a guide as to ensure all the elements are present, fonts are correct, and so forth. PDF is not used to color match. A suggested method is to call out critical colors or save your ICC profiles along with the file.

Please note: Printing in large format does not ensure 100% color accuracy. Colors and photos will print an approximate 95% accurate. We print in CMYK ONLY. Art Submissions with specific Pantone Color call out's will automatically be converted to CMYK. If you require any specific color to be matched, please include a match print, or previously printed media such as a brochure, business card or any printed sample with your desired color. We will make an effort to match your specified color. Since we print in CMYK and not in spot PMS colors, the final color printed may not exactly match the sample(s) provided.

For your convenience we do offer test strips prior to final printing for you to review.
