ALUMINUM PROFILES

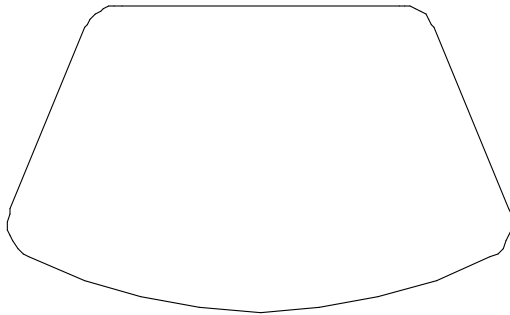

QTY 2: S1105.01 - ALUMINUM LEG

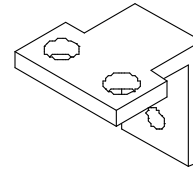

QTY 1: M1000.01 - BACK SUPPORT

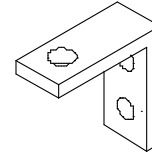

COUNTER TOP

HARDWARE

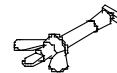

QTY 1: BACKWALL L-BRACKET
(ships connected to backwall posts, when ordered with backwal)

QTY 2: LEG L-BRACKET
(ships connected (1) per leg)

QTY 4: 5/16-18 3/4" SPADE HEAD SCREW

QTY 2: LONG HAMMER HEAD SCREW WITH WING NUT

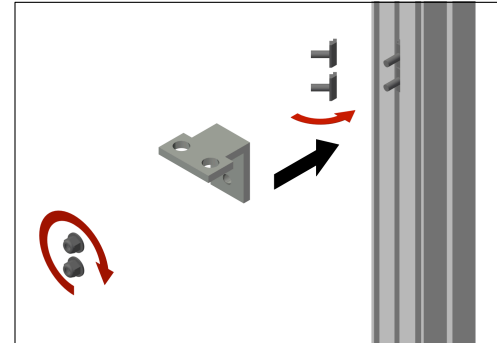

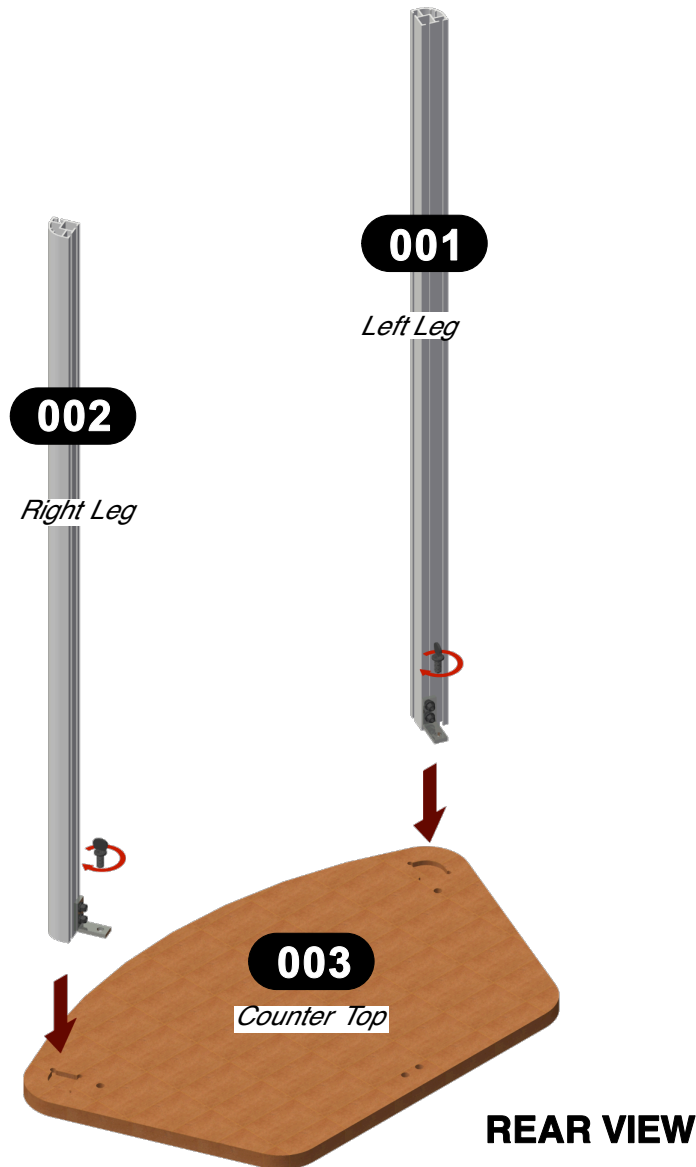

QTY 6: M5 HAMMER HEAD SCREW
(used to secure l-brackets)

QTY 6: M5 LOCKNUT
(used to secure l-brackets)

1. Position legs into notches underneath of counter top.
2. Attach legs #001 & #002 to counter top using (1) spade head screw per leg.

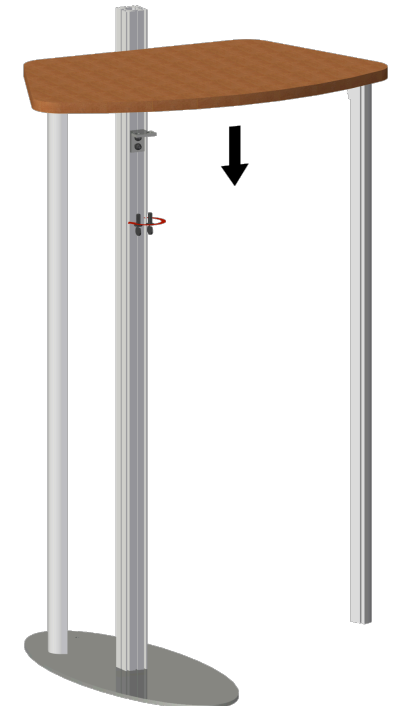

If counter ordered separately from backwall.

Attach provided Backwall L-Bracket to backwall post at 37-1/2" high from base plate using (2) hammerheads screws and (2) locknuts.

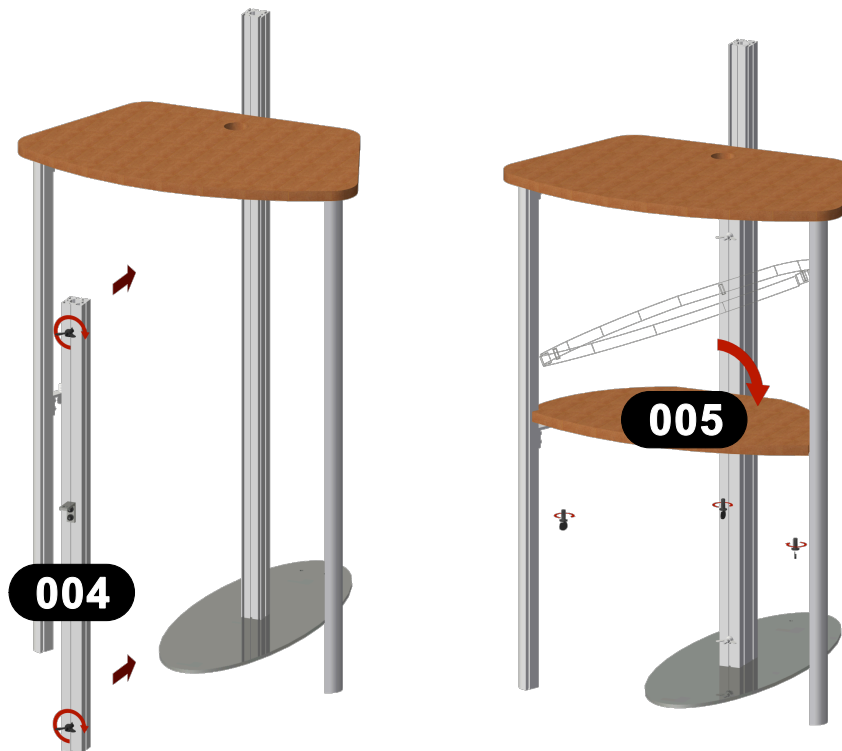

1. Carefully flip leg with counter top assembly and place it on top of backwall bracket.

2. Line up inserts underneath of counter top with holes on bracket and secure top with (2) spade head screws from underneath.

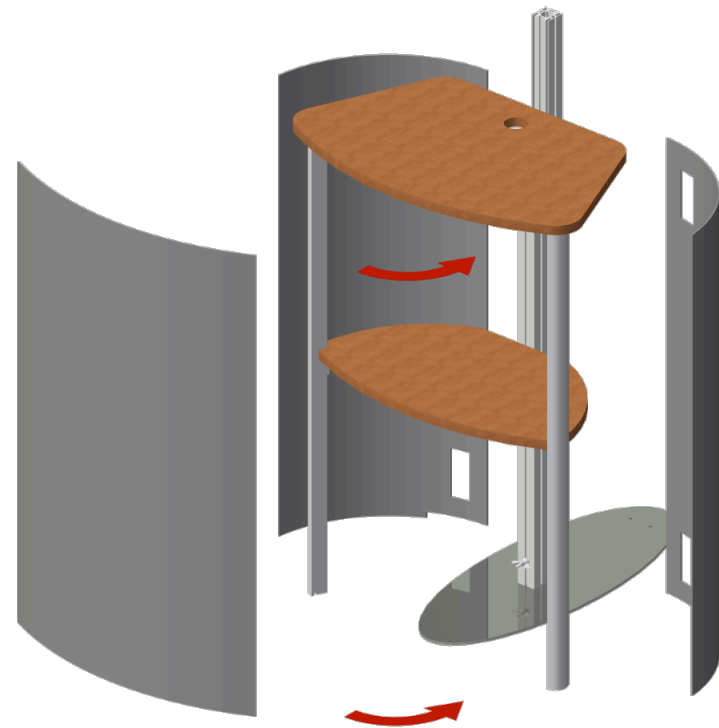

BACKWALL STRUCTURE IS NOT SHOWN.

1. Loosen wing nuts on #004 shelf support beam.
2. Position #004 against backwall post and adjust long hammer head screws to get into groove of backwall post and rotate hammer head screw to keep it in groove.
3. Tighten wing nuts to secure shelf support beam on backwall post.
4. Place #005 shelf on top lower L-Brackets and secure with (3) spade head screws.

FRONT VIEW

1. Insert front panel edge into one of leg's channel. Carefully bend panel and place other edge into opposite side leg's channel.
2. Insert side panel edge into front leg's channel. Using cutouts on side panel bend and place other edge of panel into back shelf support beam's channel.

**BACKWALL STRUCTURE
IS NOT SHOWN.**
