Anodized Colors

We now offer 11 different Anodized colors for Abex 300 Series frames. The price for anodizing Abex 300 Series frames is \$300.00(NET) minimum for up to 20 quads. Over 20 quads, add \$15.00(NET) per quad.

Powder Coating

We can Powder Coat the following:

Channel bars	\$ 3.00 Net Each
Stabilizer Feet	\$ 3.00 Net Each
Shelves	\$ 6.00 Net Each

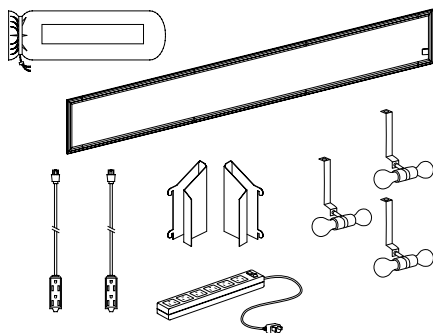

All of the above have a \$250.00 (NET) minimum charge. Call on lead times.

Add a minimum of \$250.00 (NET) for all curved frame powder coating up to 25 quads. Over 25 quads, add \$10.00 per quad.

Please allow a minimum **3 weeks lead time** for all non-stock powder coating and all anodizing orders. Call for precise lead times.

Anodized Colors

We now offer 11 different Anodized colors for Abex 300 Series frames. The price for anodizing Abex 300 Series frames is \$300.00(NET) minimum for up to 20 quads. Over 20 quads, add \$15.00(NET) per quad.

Powder Coating

We can Powder Coat the following:

Channel bars	\$ 3.00 Net Each
Stabilizer Feet	\$ 3.00 Net Each
Shelves	\$ 6.00 Net Each

All of the above have a \$250.00 NET minimum charge. Call on lead times.

Straight Frame Stock Colors

Red-Black-Yellow

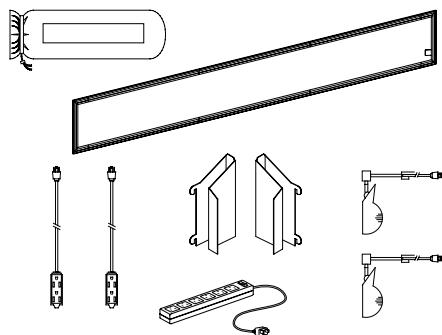

Add \$10.00 per quad (NET) for all stock powder coated frames.

Add a minimum of \$250.00 (NET) for all non-stock and curved frame powder coating up to 25 quads. Over 25 quads, add \$10.00(NET) per quad.

Please allow a minimum **3 week lead time** for all non-stock powder coating and all anodizing orders. Call for precise lead times.

ORDERING PROCEDURES

How To Use The Pop-Up Systems Binder

The Abex Pop-Up Systems binder is designed to make selling and ordering Abex Panel Systems exhibits quick and easy. A review of the main Table of Contents will help to familiarize you with the binder layout. The binder is divided into two main sections;

- **200 Ultralite & 300 Curved Frame**
- **350 Straight Frame**

Each main section includes five sub-tabs:

Packages, Components, Counters, Accessories and Design Ideas

Each page of the Package Section serves as a Quote/Order form which may be copied and faxed directly to Abex. The following is a review of each section. Watch for bold, italicized words in the following overview for discount information.

Packages:

In this section each basic package includes a brief description including casing requirements and approximate weights. The part numbers and prices are broken down into the individual components included in the package, as well as several blank lines to fill in your own additions. Space is also provided at the top of each page to note fabric/laminate colors, add the salesperson's code and lead number. Please call out the colors specs on the line drawing as, well as the fabric laminate color key. Please refer to the Reference section for fabric and laminate standard selections.

Quickship

These packages are shown with the  logo noted on each applicable package in the top left corner. These units can ship in 48 hours.

Value Added Packages

Value added units for both the Abex 300 Curved Frame and Abex 350 Straight Frame can be found in the back of the package section. These units provide 15% off accessories if they purchased exactly as shown.

Straight Frame 15% Off Discount

The Abex 350 Straight Frame packages shown in the binder are available at 15% off the prices shown, if they are ordered without any modifications. Value added units in the Abex 350 may also receive 15% off accessories. Purchases of the Abex 350 hardware packages at 15% off are allowed with an incomplete panel set priced out at regular list (the panel set set is modified but the hardware portion is not.)

ORDERING PROCEDURES

Lead Times/Quickship units

Abex Display Systems Production Lead-Times

The following is a list of our production lead-times for each product line. All orders must be received complete by 12:00 p.m. Pacific Standard Time to be processed that business day. Production time begins the day after the order is received. For custom units, production time does not begin until the design is complete and the Abex quote is signed by the distributor.

Abex 200, Abex 300, Abex 350

- | | |
|-----------------------------------|----------------------------|
| • Stock parts | 2 business days (minimum) |
| • Quickship | 2 business days |
| • Stock packages | 10 business days |
| • Custom and modified stock units | 15 business days (minimum) |

Lead-times are subject to availability and do not apply to volume orders. Abex reserves the right to extend lead-times as needed.

Rush Charges

Rush charges are applied when a customer requests an item in less than standard lead-time. In order to compensate for overtime in our administrative and production areas, a rush charge of 3% of list has been established. The rush charge will be added to the net cost of the exhibit for each day short of the required lead-time.

Quickship Units

Following is a list of all the Quickship items in the 300 Series. "Quickships" are units that we keep on the shelf, which must ship as complete units. These particular units require 48 hour lead-times, subject to availability, and do not apply to volume orders. These units are marked with the  in our Package Section for easy identification.

- Backwalls: 10' Curved, 8' Straight, 10' Straight, 5' Straight Tower,
6' Curved Tabletop and 8' Curved Tabletop
- Accessories: 4200 and 4300 Case to Table Conversion and 4100 Case
to Pedestal Conversion, Lights and Backlit Header.

All of the above are available in Coal, Silver, and Panama Frontrunner fabrics.

ORDERING PROCEDURES

Ordering Checklist

The following list contains the most common omissions received at Abex. Please be sure to include all of this information before you place an order. This will assist us in processing your order faster and more accurately.

- ☐ Have you clearly marked which product line you need?
- ☐ Have you listed all appropriate part numbers and prices?
- ☐ Have you listed the ship date, ship via and ship to address?
- ☐ Have you sent all appropriate call out drawings with your order?
- ☐ Have you listed all appropriate laminate and fabric colors, manufacturers' names, part numbers and finishes on your drawing?
- ☐ Have you listed all sizes, dimension locations and colors of panel accessories (i.e. slatwall, lightboxes, grommets, inlays, monitor cut-outs and stands)?
- ☐ Have you clearly marked any non-Abex items to be used in your design?
- ☐ Have you noted shipping containers and packing instructions?
- ☐ Have you noted your freight account number if you want the freight charges billed direct?
- ☐ Have you sent a signed copy of your finalized quote and drawings with your purchase order (applies only if placing modified stock or custom orders)?
- ☐ Have you included a call out drawing or call out binder picture of your modified stock unit?
- ☐ Have you included your individual sales code on your purchase order?
- ☐ Have you included your lead number?

If you have answered YES to all of the above questions, please fax your order and all appropriate paperwork to (818) 503-2769.

ORDERING PROCEDURES

Helpful Hints

Helpful Hints

Abex 200, Abex 300, Abex 350

- When back panels are ordered, you must include panel pegs, light posts and additional channel bars for the back of the frame. Also, be sure to order an extra case.
- When requesting straight frame panels at curved height, clearly note this on your order.
- When you request a powder coated frame with a monitor stand, be sure to note if the monitor stand is powder coated as well and allow 15 business days for production.
- Straight line inlay charge is \$50.00 per seam, per panel. Other sizes and shapes must be quoted by the Abex design department.

ORDERING PROCEDURES

Terms & Conditions

Prices

All prices shown are current list prices. Prices are F.O.B. North Hollywood, California, and do not include shipping or taxes. All prices are subject to change without notice.

Terms

All orders require a 50% deposit with order. The balance can be sent prior to shipping or COD.

If an order is canceled after production has begun the deposit will be used to cover costs incurred in the production of the order.

A request for terms must be accompanied by a completed application consisting of a bank reference and three trade references. Please allow 10 days for processing.

Terms for approved customers are 50% deposit at the time the order is placed and net 15 days on the balance.

Account balances must be kept current to insure continued credit. Orders placed when account balances are at or over limit are subject to delay.

Minimum Order

A \$175.00 minimum order is required. For orders totaling less than \$175.00, a \$25.00 handling charge will be added.

Product Sales Manuals

Each distributor will receive a quantity of product sales manuals as follows: Two of each manual for every facility and one for each sales representative on staff as of April 30, 1999. After April 30, additional manuals are \$35.00 each and are available for co-op. Please order product sales manuals through your customer service representative, part #9976-99 and part #9926-99.

Shipping

Shipments will be made according to your shipping and receiving instructions. If no instructions are provided, shipments will be made by UPS Ground.

Claims

Ownership passes to the customer upon delivery to the carrier. Merchandise must be checked immediately upon arrival. All claims for damage must be made promptly by the customer to the delivering carrier. Abex is not responsible for damage or shortages that occur in transit. The customer must note any damage or shortages on the carrier's delivery receipt. Claims must be filed by the customer with the carrier. Claims against Abex for error, defects, and shortages must be made within two weeks after delivery. Returns will not be accepted without a return authorization number. Authorization will be issued in the form of a number and should be stamped on all cartons returned. All returned merchandise must be in resalable condition if credit is requested. All transportation must be prepaid, unless authorized to the contrary.

Returns

Returned merchandise will not be accepted without the written consent of Abex. Shipping instructions and a return authorization number must be marked on each parcel. Unauthorized returns will be returned freight collect.

ORDERING PROCEDURES

Terms & Conditions

Term codes are as follows:

- HBO** - 50% check before delivery, 50% C.O.D.
- H15** - 50% check before delivery, 50% net 15 days
- 5BD** - Full amount due 3 days before shipment, 3% cash discount applies
- CBD** - Check before delivery on net items
- ROG** - Receipt of goods
- N/C** - No charge
- CCK** - C.O.D./cash or certified check only

- Shipping charges will be added when an order is invoiced.
- When remitting a check for more than one invoice, please specify how the check should be applied.
- Packages can be modified by either deleting or adding the list price of the item.
- For retrofit panel orders, please note serial # and invoice # if available.
- An order verification copy of the sales order will be faxed to you. Please check it for accuracy.
- Orders once received, may only be cancelled with the approval of Abex Display Systems Inc. If approved, a restocking fee of 15% of the order will be charged.
- Any changes on orders must be submitted in writing by fax or mail and will be subject to a \$25.00 change fee.
- Orders being held for payment, will be held for two days. If payment is not received, orders will be returned to stock and a 15% restocking fee will be charged.

Cash Discounts

A 3% cash discount is available for all orders that are completely prepaid. Your monthly statement will reflect your discount.

Credit Application

Abex Display Systems, Inc.
7101 Fair Avenue
North Hollywood, California 91605

We appreciate your interest in Abex products and your desire to open an account with us.

In order to establish an open account with us, we require the names and addresses of three trade references as well as the name of your bank. (This information is also required for C.O.D. company check shipments.) You can be assured that this information will be kept strictly confidential.

Please allow one to two weeks to verify the credit information. If this delay is inconvenient, your check with your order will assure immediate processing.

Packing Tips

Ease of use was a primary goal of the Abex 300 Series award-winning case design. Use these tips as a guide to simplify your teardown and repacking.

- Make sure frame strap is around frame prior to packing.
- Pack frame in frame bag, channel bars into padded channel bar bag, and any accessories into their respective bags.
- Case to Table Conversion for 4200 Series Only: Ends of skirt roll up in panel case before all other panels. Front and back of skirts go in last.
- Case to Pedestal Conversion for 4100 Series Only: When packing in cylindrical case, ends of skirt roll up in case first. Front and back panels go in next. Top goes in last.
- Always roll up panels in sets of two, fabric to fabric. (Exception: Roll up curved frame end panels in sets of two [with a liner between] fabric side out.)
- Do not roll panels too tight. Damage may occur to the magnetic strip adhesive.
- A liner is included if there is an odd number of panels.
- Use the liner as a divider between panels and hardware when packing tabletop displays.
- Photomural panels must always be individually rolled image side out with the slip sheets that are provided.
- Cases may be strapped together for easy transport.
- The following pages diagram packing locations for the majority of the Abex 200, Abex 300 and Abex 350 product line. You may receive specific packing instructions should you have a custom display.

Case Shelf

Open the case lid and lower the hinged shelf into position. Shelf may be removed if desired.

SHIPPING

Abex ships via U.P.S Ground unless specified otherwise. Please remember to calculate shipping time when discussing delivery with your client. U.P.S. and Federal Express Rate and Zone charts follow for your convenience.

If an order does not arrive by the due date please call our offices immediately so that a tracer can be placed.

Freight charges are added at the time of shipping and/or invoicing.

Please check your order for damage or discrepancy upon receipt. Abex must be notified of any discrepancies within two weeks of receipt of shipment.

Ground = 3 Day Select, Groundtrack, Ground

WARRANTY

Lifetime No-Fault Limited Warranty

Frame

Abex Display Systems, Inc., a California corporation, warrants the frame for the lifetime of the product and extends this warranty to the original retail purchaser. Repairs will be made at the location of your nearest authorized dealer unless otherwise approved by Abex Display Systems.

Panels And Other Components

Abex Display Systems, Inc. extends a limited warranty to the panels, shelves, light fixtures, channel bars, cases, tables and other accessories. Panels (which represent the flexible surface covering the frame and channel bars) are under warranty for a period of 90 days from shipment. Other components listed are under warranty for a period of one year from shipment. Both limited warranties apply to manufacturer's defects in materials and workmanship only. Defects to either panels or other components will be determined solely by Abex Display Systems, Inc., and not by any representative, distributor or dealer of, or for, Abex Display Systems, Inc. Upon determination of a defect, Abex Display Systems, Inc. sole obligation will be to repair or replace the defective part.

The conditions of this warranty are: (1) The Exposure panels or other components shall have been subject to only normal use and service, and shall not have been misused, neglected, altered or otherwise damaged; and (2) There shall be no evidence of tampering or deliberate misuse or destruction.

No representative, distributor or dealer of, or for, Abex Display Systems, Inc. is authorized to assume for Abex Display Systems, Inc. any other obligations or liabilities in connection with the panels or other components, or alter the terms of this warranty in any way.

Abex Display Systems, Inc. must authorize the return of any alleged or defective part before it is returned. All

shipping and transportation costs must be prepaid by the buyer. Abex Display Systems, Inc. will not accept charges for parts purchased unless the conditions of the warranty have been satisfied and charges have been agreed to by Abex Display Systems, Inc.

This warranty is in lieu of all other warranties, expressed or implied. All implied warranties, including, but not limited to implied warranties of fitness and use for a particular purpose, are excluded except as herein provided.

Abex Display Systems, Inc. shall not be liable for damages, including special, incidental or consequential damages arising out of, or in connection with the performance of this Exposure display or its use by the owner.

The liability of Abex Display Systems, Inc. is limited exclusively to repair and/or replacement of the defective part.

Abex Display Systems, Inc.
7101 Fair Avenue
North Hollywood, CA 91605

WARRANTY

Lifetime No-Fault Limited Warranty (Ultralite)

ABEX 200 ULTRALITE 5 YEAR LIMITED WARRANTY

5 Year Limited Warranty

Frame 5 Year Limited Warranty

Abex Display Systems, Inc., a California corporation, warrants the ABEX 200 ULTRALITE frame for five years and extends this warranty to the original retail purchaser. Repairs will be made at the location of purchase unless otherwise approved by Abex Display Systems.

Panels And Other Components-Limited Warranty

Abex Display Systems extends a limited warranty to the panels, light fixtures and cases. Panels (which represent the flexible surface covering the frame and channel bars) are under warranty for a period of 90 days from shipment. Other components listed are under warranty for a period of one year from shipment.

Both limited warranties apply to manufacturer's defects in materials and workmanship only. Defects to either panels or other components will be determined solely by Abex Display Systems, Inc., and not by any representative, distributor or dealer of, or for, Abex Display Systems, Inc. Upon determination of a defect, Abex Display Systems, Inc. sole obligation will be to repair or replace the defective part.

The conditions of this warranty are: (1) The ABEX 200 ULTRALITE, panel, frame or other components shall have been subject to only normal use and service, and shall not have been misused, neglected, altered or otherwise damaged; and (2) There shall be no evidence of tampering or deliberate misuse or destruction. This warranty specifically excludes damage caused by accident, fire, water, heat, light, neglect or international damage.

No representative, distributor or dealer of, or for, Abex Display Systems, Inc. is authorized to assume for Abex Display Systems, Inc. any other obligations or liabilities in connection with the panels or other components, or alter the terms of this warranty in any way.

Abex Display Systems, Inc. must authorize the return of any alleged or defective part before it is returned. All shipping and transportation costs must be prepaid by the buyer. Abex Display Systems, Inc. will not accept charges for parts purchased unless the conditions of the warranty have been satisfied and charges have been agreed to by Abex Display Systems, Inc.

This warranty is in lieu of all other warranties, expressed or implied. All implied warranties, including, but not limited to implied warranties of fitness and use for a particular purpose, are excluded except as herein provided.

Abex Display Systems, Inc. shall not be liable for damages, including special, incidental or consequential damages arising out of, or in connection with the performance of this Exposure display or its use by the owner.

The liability of Abex Display Systems, Inc. is limited exclusively to repair and/or replacement of the defective part.

Other Rights: The above warranties give the purchaser specific legal rights, and the purchaser may have other rights which vary from state to state. Some states do not allow exclusion or limitation of duration of implied warranties or the exclusion of liability for incidental or consequential damages, so some of the above exclusions and limitations may not apply to the purchaser.

Governing Law: This warranty is governed by the laws of California, and any litigation conducted with respect to the warranty shall be conducted in Los Angeles county, California.

Replacing 13mm Scissors

Each 13mm scissor is connected to the hub by an axle. To release the tube from the hub, insert the screw starter tool into the axle and pull out. Refer to figure 1.

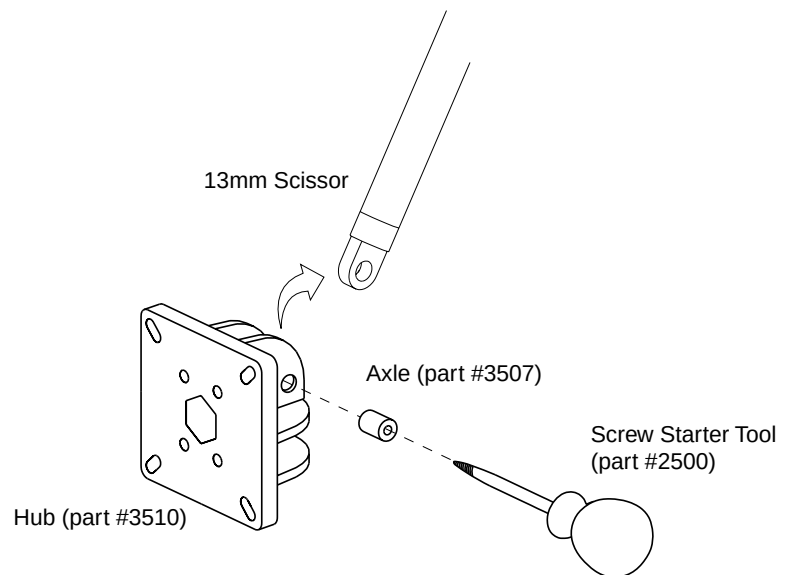

Figure 1

Vertical Scissors

To replace the vertical scissors, remove the four pins connecting the scissor to the hub. Replace with new scissor following figure 2.

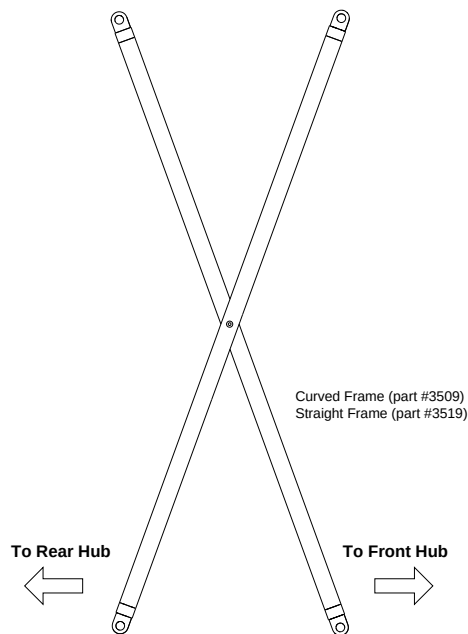

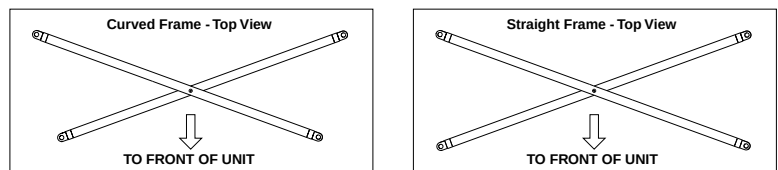

Figure 2

Displaced (Horizontal) Scissors

When replacing horizontal scissors, refer to figure 3. It is important that the scissor be placed exactly as in the diagram. On the curved frame, the longer arms of the scissor attach to the rear hubs.

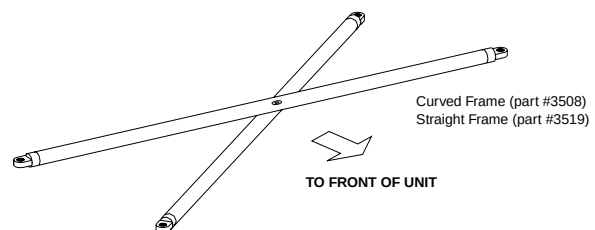

Figure 3

Replacing 8mm Scissors

The 8mm Scissors just snap into the hubs. Simply snap in or out as needed. Please note that on the curved frame, the longer arms of the scissor attach to rear hubs. Do not attempt to force the scissor into the hubs. If the scissor does not seem to fit, rotate the scissor 1/4 turn and re-install. Refer to figure 4.

Curved Frame (part #3511)
Straight Frame (part #3521)

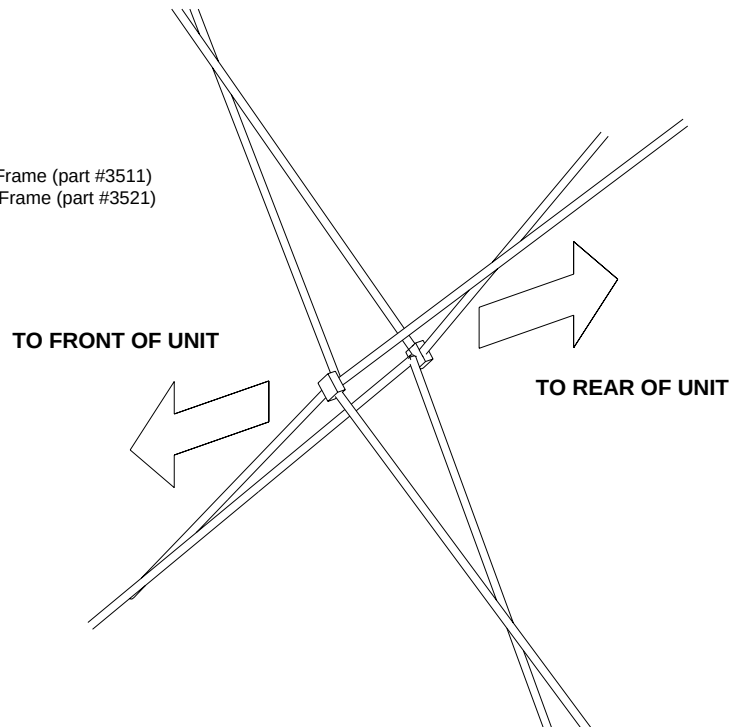

Figure 4

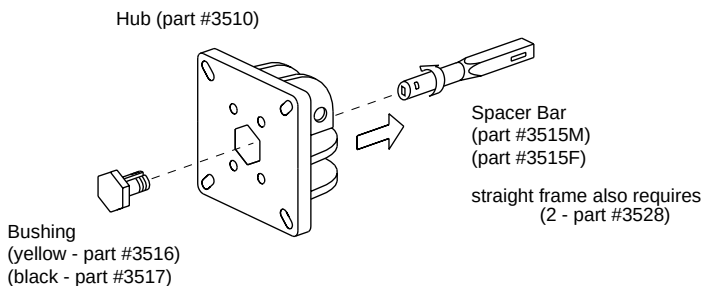

Figure 5

Replacing Spacer Bars

Locking Spacer Bars are connected to the frame with a hexagonal bushing. To replace spacer bar, begin with the bar in the unlocked position. Twist bar 1/4 turn and pull to remove. The bushing may now be removed if necessary by pushing it out from the inside of the display. To connect the new bar, push it into the hub being sure that the bar is aligned as shown in figure 5. When you hear a click, the bushing is fully connected to the bar.

Laminates

Stock Laminates

The following is a list of laminates available as standard (no upcharge) on any Laminate system, QuickConnect system, or any counter top in all product lines. All solid color laminates with a matte or gloss finish from Formica, WilsonArt or Pionite are also considered standard and won't have an upcharge (certain lacquer and mirror finishes are not considered "gloss" and will have an upcharge. Send your design into the Abex Design department, for colors not shown here, to determine if there will be an upcharge and, if so, how much it will be.

Letter Height Visibility

Please use the following chart to judge the visibility of your graphic letters from various distances.

Letter Height	Maximum Visible Distance
1 inch	40 feet
2 inches	75 feet
3 inches	100 feet
4 inches	150 feet
5 inches	200 feet
6 inches	250 feet
7 inches	300 feet
8 inches	350 feet
9 inches	400 feet
10 inches	450 feet
11 inches	500 feet
12 inches	525 feet

NOTE: The above distances will vary approximately 10% with various color combinations.

GRAPHICS

Glossary of Graphic Terms

BURNING

Darkening of a specific area of a print by controlling the exposure to bring out more detail.

COLOR BALANCE

Adjustment of the overall color quality until it is satisfactory.

COLOR CORRECTION

To compensate for the color imbalances of a print or transparency.

COLOR NEGATIVE

Film on which the image is in reverse color. Used to make color prints or transparencies; also black and white prints on Panalure paper.

COPY NEGATIVE OR INTER-NEGATIVE

A negative used to make color prints or transparencies when the original negative or transparency is not available.

CROPPING

Selecting a portion of a negative or transparency to be printed and eliminating the remainder.

DENSITY

A measure of how light or dark a negative print is, due to the exposure time or light intensity during exposure.

DIGPRINT

Abbreviation for Digital Output.

DODGING

Lightening a specified area of a print by holding back the light from the part of the image.

DUPLICATE TRANSPARENCY

Transparencies reproduced from original transparencies.

DURATRANS & DURAFLEX

Media that Abex prints all of its photo material on.

ENLARGEMENT

Reproduction of an image to a larger size than the original.

FILM POSITIVE

A positive image on film having a clear background and a solid black image.

FINISHING

The process of spotting, surface enhancement or mounting.

FLOP NEGATIVE

To turn a negative over so the image is reversed from the normal print.

FULL FRAME

The entire image area; no cropping.

HALF TONE

The conversion of continuous tone art into screened art, for use in print reproduction.

INTER-NEGATIVE

A color negative (used for making C prints) made from an original transparency by contact or projection printing.

LINE NEGATIVE

A negative made from line art having no gray tones.

MACHINE PRINT

A print made on a semi-automatic, fixed focus printer on which there is no burning or dodging and limited cropping.

MATTE

Dull or non-glossy finish.

NEGATIVE

A film on which the image is in reverse.

OPAQUEING

The application of a water-based pigment to a negative so that light cannot pass through during the printing process.

POSITIVE

A photographic image in which the tones of the image are the same as the original subject.

PRINT RETOUCHING

Painting on a color print with dyes, watercolors, pencils, etc. to improve the image.

PROOFS

Prints made at the same size as the negative to preview the images for easier selection.

REDUCTION

Reproduction of an image to a smaller size than the original.

SLIDE

A 35mm or 2 1/4 transparency.

SPOTTING

The application of dye to a color print to improve minor blemishes.

TEST STRIP

A print made to test color balance, density or focus before printing.

TRANSPARENCY

A positive-image film viewed by transmitted light.

ORDERING PROCEDURES

How to Use Exposure Binder

The Exposure Product binder is redesigned for quick and easy quoting and ordering. A review of the Table of Contents will help to familiarize yourself with the binder layout. You will see that we have reorganized the binder into Straight Frame and Curved Frame sections. Each of these sections include three sub-tabs, Packages, Components and Parts. Each page of the package section serves as a Quote/Order form which may be copied and faxed directly to Abex. The following is a review of each section. Watch for **bold**, *italicized* words in the following overview for discount information.

Packages:

In the package section, the left page includes a package description including part numbers, prices and weights. You will find one price for the Hardware, which includes the frames, channel bars and cases, and one price for the complete panel set as shown. The part number and price for Hardware is provided for each of the suggested case options. Also included are suggested accessory options as well as blank lines to fill-in your own accessories. Space is also provided in the lower left corner of each page to note fabric colors. Please call out the fabric colors on the line drawing as well.

Once filled out completely, this page can serve as an order form which may be faxed directly to Abex. Please see the sample attached for specific information needed by the sales support department including company name, sales code#, P.O. and complete shipping information.

To save you time, we added an accessories page for each package. Located on the right hand page, we have listed suggested accessories for each package, i.e. case to table conversions, backlit header packages and much more. The accessory suggestions include part numbers and prices. If deletion of panels is required for the particular accessory, we did the math for you. Included is one price, the difference between the deletion of panels and the accessory cost. Please note that the price and part number for some accessories depends on the case option chosen. Be sure to add your accessory to the package page on the left hand side in the blank lines provided, and be sure to draw the location of each accessory on the unit.

Table Tops and 5' Towers

Table tops and 5' towers are already priced as discounted packages. To receive the discounted package price, these units must be ordered as shown without modification. Any deletion of panels will require a calculation of the panel price, based on the panel prices in the parts section. Complete hardware packages may be ordered as priced in the binder as a package without panels.

ORDERING PROCEDURES

How to Use Exposure Binder (cont.)

Components:

This section includes all packaged components including backlit header packages, shelf packages, monitor stands, frames, frame plug-ins and repair kits.

Parts:

This section includes all individual parts including channel bars, panels, frame parts, backlit header parts and shelves.

Design Ideas:

At the end of the Curved and Straight sections begins Design Ideas. This section includes special Designer packages that will be updated regularly. ***A 15% discount is available on the Hardware, Panel Sets and Cases, if the unit is ordered as shown and not modified.***

Accessories shown on Design Ideas are line items and may not be discounted. If you require an itemized quote that lists the prices for all items contained in the unit, please fax the request to the Design Department. Discounts are not shown on Design's quote.

Lights & Cases:

Lights and cases have been combined into one tab. Listed in this section are light packages and parts as well as cases, case accessories and case parts.

Ordering:

Along with this "How to Use Exposure Binder" information, included in the ordering section are examples of how to complete a package page before faxing the order to Abex. Also included is a replacement parts order form, Abex production lead times, an ordering checklist, helpful hints and sample orders. For your information, we have provided a flow chart of how an order moves through Abex.

Packing/Shipping:

Included in this section are packing instructions for the 4100, 4200 and 4300 cases.

Warranty/Repair:

This section explains our Lifetime No-Fault Warranty, and provides repair instructions for scissors and spacer bars.

Reference:

Please add any fabric cards or Exposure literature information from the old Exposure binder to the reference section in the new Exposure binder.

Addendum:

This tab is included for your convenience. Please place any Production Updates, Distributor Updates or Binder Addendums to this section for quick reference.
