

ABEX 500 EXHIBIT

ABEX 500 AND 900 CASES

AIRTUB IS ROTOMOLDED FOR STRENGTH

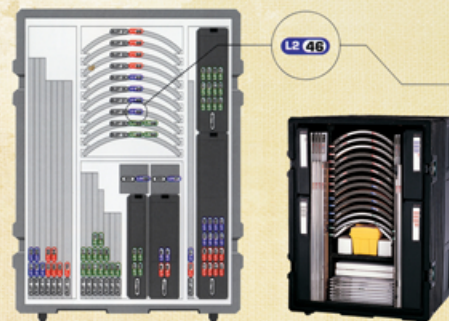

AIRTUB

All Abex cases are rotomolded for strength and reduced weight to lower shipping and drayage costs. These lightweight and rugged cases feature greater wall thickness than other cases along with fitted compartments to help protect panels during transit and storage.

AIRTUB MINI

- Holds a standard 10' x 20' Abex 500 Linear exhibit
- Converts to a table with accessible storage space
- Wheels for ease of transport

Each component's level and location in the exhibit is clearly designated.

Abex cases are clearly marked for the location of every component. All Abex cases are rotomolded for strength and reduced weight to lower shipping drayage costs.

ABEX 500 AND 900

ONE SYSTEM FOR ANY VENUE. GO RECONFIGURE

ABEX 500 AND 900 SYSTEMS

The Abex 900 and 500 panel systems allow you to easily reconfigure your exhibit to meet changing venue and marketing requirements. A 10' x 20' inline display can be easily transformed into a 10' x 10' or even built out to a 20' x 20' island depending upon your needs. Encompassing an unparalleled selection of components, features, accessories and finishes, the Abex 900 and 500 systems meld precision engineering with the highest quality materials. Select from hundreds of laminate finishes including faux marble, exotic woods and metallics for a look as unique as your company's products or services.

Step-by-step assembly instructions with sequentially numbered, color-coded components and storage compartments facilitate set-up and tear down. Choose from hundreds of designs, or let the Abex Design department make your vision a reality. You'll be glad you did.

QUICK FACTS

- 500/900 systems can be easily reconfigured to meet changing venues and requirements.
- Select from a library of walls, bridges, headers.
