

Connection & Folding Detail. Please read carefully!

Step 1:

Insert the connectors into the tubes of one truss part.

Step 2:

Lightly tighten the set screws so the connection does not disengage.

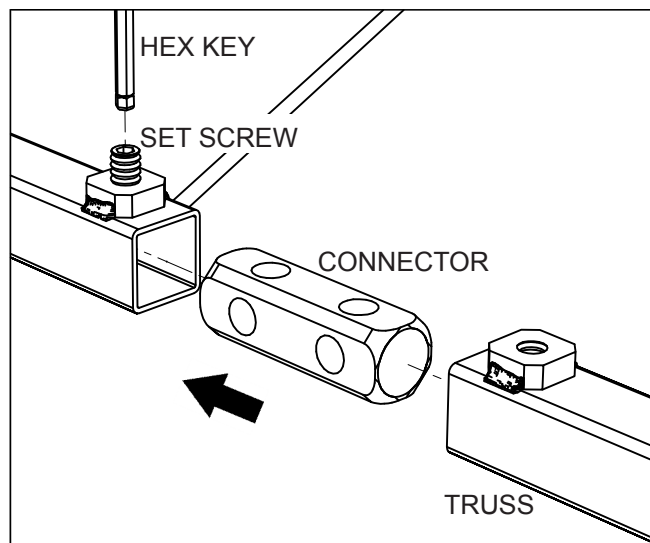

Step 3:

Once all connectors are attached to the first truss part attach the second truss part the same way.

Step 4:

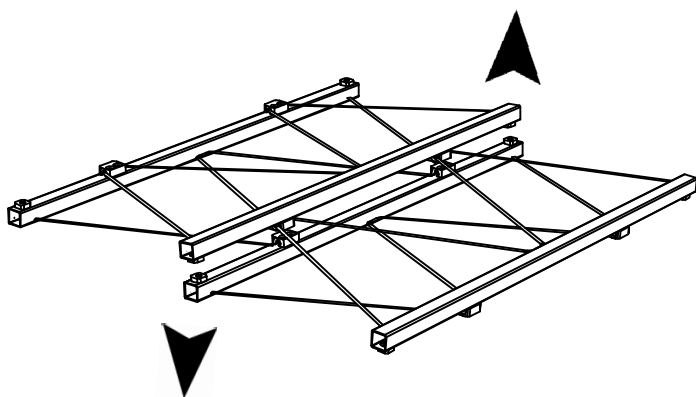

Once both parts are together tighten all set screws with 5/32 hex key provided.

Connection Detail

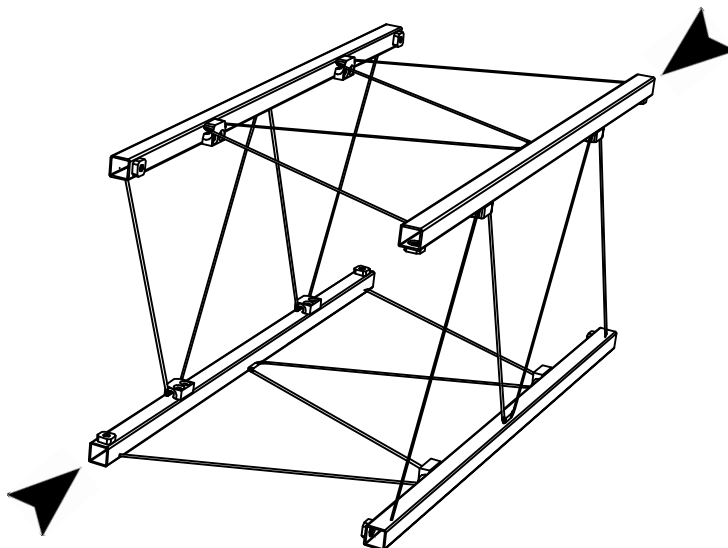

Assembly:

Pull the two apposing tubes away from each other until the truss is square.

Folding:

Push the two apposing tube towards each other until the tubes are together.
