

WE FINALLY SAW THE LIGHT

INTRODUCING LUMIWALL

**FREE SHIPPING
THROUGH 9/30**

**LED BACKLIT ALUMINUM FRAME DISPLAY
WITH SEG PRESS FIT GRAPHICS**

We didn't invent the portable graphics lightbox, we just perfected it.

Lumiwall backlit displays are constructed of the highest quality aluminum extrusion and feature SEG (Silicone edge gasket) press fit fabric graphics for hassle free set-up. Heavy duty aluminum feet ensure maximum stability. Graphics are printed on premium fabric designed to provide maximum illumination while maintaining vibrant colors. The entire unit disassembles and packs flat in a single wheeled rotomolded transport case for unparalleled protection. Perfection takes time.

Features include:

- Substantial 4.5" thick aluminum frame with wide stabilizer feet
- Easy assembly with a single tool (included). Lights pre-attached to frame.
- Backlight ready dye-sublimated SEG press fit graphics
- Durable wheeled rotomolded case with custom-fit packing for superior protection
