6 Foot Full Dye-Sub Twill Pleated Table Throw

Starting at **\$374 (P)**
(deduct \$40.00 (P) if no pleats required)

Our full Dye-Sublimation Printed Pleated Table Throws provide high impact branding, and hang perfectly without bunching. Our dye-sublimation process yields striking photographic images on fabric. With this process, the image becomes molecularly bonded to the fabric so it can be washed without harming the image. Since there are no set-up charges for Dye-Sub, regardless of the number of colors, you can produce your logo or graphic image on a small number of units and spare yourself the set-up charges of other methods.
