

TOTAL TURN KEY

ABEX DISPLAY SYSTEMS

Unlock the Creativity. Unlock the Performance.

For over twenty-five years, Abex has been delivering turn.key portable modular exhibit solutions for every size, space and budget. From the simplest pop-up with graphics to state-of-the-art hybrid exhibits that include panels, aluminum extrusions and tension fabric, our systems can be found at virtually any show on every continent.

Every Abex exhibit system is completely portable, modular, and "total turn.key."

We manage the entire process:

- Design and CAD
- Component sourcing and consolidation
- Fully integrated parts identification system
- Computer generated packing and set-up instructions
- Pre-ship set-up and preview (in-house or remote via webcam)
- Single point-of-contact project management

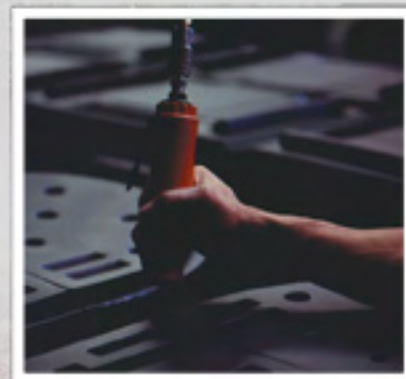

The Power of One.

When you choose Studio Abex, you can be sure everything fits perfectly.

Extensive product libraries & packing macros allow our design team to CAD the most cost and space effective solution for even the most complex designs quickly and accurately.

AIRTUB is the world's smartest exhibit packing system. The result of years of research, AIRTUB offers superior exhibit protection in transit while reducing drayage, shipping and set-up cost. Besides weighing hundreds of pounds less than conventional wood crates, each and every component has a clearly numbered position in the tub. Our AIRTUB and set-up instructions could save you thousands of dollars the course of a typical trade show or event schedule.

Personalized project management and pre-ship set-up with available webcam preview ensures timely completion of your exhibit. No more dealing with multiple vendors and timelines - that's the Power of One.

THE POWER OF ONE
ONE VISION

EVERY GREAT EXHIBIT STARTS WITH A GREAT VISION. WE STAFFED OUR DESIGN DEPARTMENT WITH THE TOP CREATIVE TEAMS IN THE COUNTRY AND HAVE GIVEN THEM THE CHALLENGE AND THE DESIRE TO DEVELOP EXHIBIT SOLUTIONS THAT ARE FUNCTIONAL AS WELL AS BEAUTIFUL.

THE POWER OF ONE
ONE VISION

Abex Show Grade Quality. You know it when you see it.

Show grade design and engineering means a commitment to a higher standard. Zealous attention to detail, innovation, and technology separate every Abex exhibit from the mainstream. Frames that last longer, panels that fit better, cases that stand up to the most grueling show schedules. Constructed of the highest quality materials, each Abex exhibit is designed, engineered and manufactured to the highest standards and backed by one of the most comprehensive warranty and support programs in the industry. At Abex, we strive for excellence in the smallest detail because we know the last place you can have something go wrong is on the show floor.

A world of exhibits.

From our Los Angeles headquarters, Abex portable modular exhibit solutions are shipped to customers in over 60 countries and backed by a worldwide distribution network of over 300 portable modular exhibit distributors.

Join the thousands of satisfied customers like Yahoo, Google, NEC, AT&T, Sony, Toshiba, John Deere, and Nissan that have entrusted their trade show and event activities to Abex. Experience the difference an Abex total turn.key can make at your next trade show or corporate event.
