EXHIBITS FOR THE REAL WORLD

We offer a complete line of high quality, easy-to-use, and affordable portable display products for trade shows, point of purchase, marketing, advertising, events, presentations and displays. Our portable display products are designed with one thing in mind—to allow you to effectively and conveniently brand your products and services.

FEATURED PRODUCTS

SUPREME BANNERSTAND

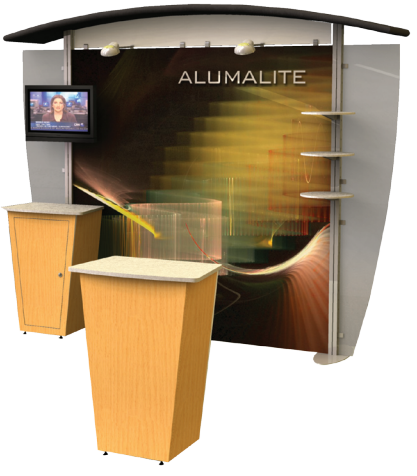

Our most popular bannerstand. Supreme has all the features you need to make your display or event a success.

- Comes complete with sleek metal base, replaceable cartridge, telescopic pole and carrying case.
- Replaceable cartridge allows quick and easy banner changes
- Includes a Polybanner 1200 dpi graphic
- Optional banner light

POP-UP DISPLAYS

Pop-up displays set up quickly and easily, and are perfect for making a good impression on a budget. Choose from 8ft and 10ft pop-ups featuring straight, curved or wave profiles, or explore our 20ft display with gullwing, serpentine, curve-straight, or straight-curve-straight footprints. All are available with wheeled shipping cases that transform into a counter at the show; other accessories include lights, shelves, monitor mounts and more.

ALUMALITE

The First Family of Alumalite Display Systems!

The Alumalite family consists of three products lines: CLASSIC, LINEARE and ZERO, our most affordable entry level linear system. All are lightweight, pack compactly in foam fitted wheeled cases, and reduce your shipping, drayage and set up costs. Most 10' units can be set up by two people in less than than ninety minutes. Available in 10' and 20' inline configurations.

OCTANORM INSIDE

MULTICONNECT FABRIC PANEL SYSTEMS

MultiConnect pre-connected fabric panel systems combine maximum durability with 360 degree panel movement to allow you to create unique custom shapes that set up quickly and easily. Whether a 10' inline or a 30' island, MultiConnect combines set up ease and low entry cost with a myriad of accessories, including lightboxes, backlit headers, product displays and more. Because the panels are covered in velcro-compatible fabric, you can easily attach your own display graphics using hook type velcro (available for purchase separately).

monitors /mounts and podium counter

(shown with Las Vegas Lights
optional monitor/mount and 4600 case conversion)

FABRIC / GRAPHIC

Fabric pop-up displays set up quickly and easily, and are perfect for making a good impression on a budget. All of our pop-ups are made in the USA and come with a limited lifetime frame warranty. These display packages come with everything you need: a sturdy display frame, panels in your choice of 54 FRONTRUNNER™ or PRELUDE™ fabric colors, a rugged, lightweight rotomolded case, and UL approved, halogen or Las Vegas light kits. Podium conversion kits, shelves, backlit headers and LED lighting are some of the available options.

*Economy Packages (PL) offer curved profiles, and are available in both floor-standing and tabletop models. Economy frames are constructed from 8mm aircraft aluminum frame, and come with a limited lifetime warranty.

Our Premium Packages (PRC) offer a sturdier frame constructed of 8mm and 13mm aircraft aluminum. These floor standing models are available in a variety of shapes and sizes, including curved, straight and wave.

Fabric panels are included but graphic panels can be added to any of the packages below. Please refer to page 9 to see our packages that come pre-configured with graphic panels.

8’ CURVED

GRAPHIC POP-UP DISPLAY PACKAGES

Customize your pop-up display with high-quality mural graphic panels. We print all of our graphics panels in house on state-of-the-art HP printers, and then assemble every unit for quality control before it ships. You can be assured that everything fits perfectly because we know that the last thing you need to worry about on the exhibit show floor is your exhibit.

PLTT-1

TOPPERS

Big display impact in a very small space...

Toppers broadcast your message in a big way. These ultramodern tabletop systems are built of aircraft grade aluminum, and feature a large footprint for stability. Each Toppers display comes complete with the frame, graphics, headers and wings, lights and a wheeled rotomolded case. Toppers set-up and break down in minutes, and everything packs neatly inside the foam-fitted rotomolded wheeled case. Toppers are made in the USA, and are backed by a limited lifetime frame warranty.

OCTANORM INSIDE

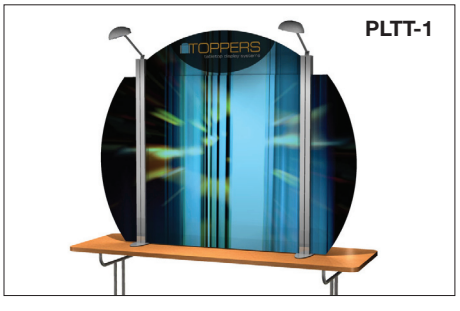

Packing System

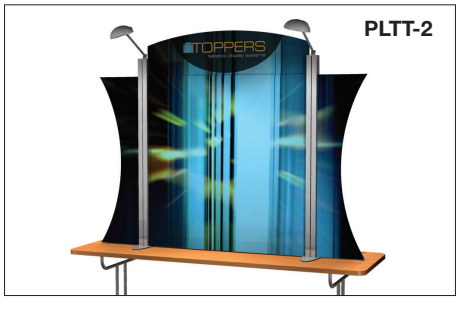

Every Toppers display comes complete with a rotomolded, wheeled case for easy transportation. Each part of your Toppers has a unique location within the custom foam fitted case, to make finding each part a snap. The lightweight, heavy-duty case will protect your Topper while reducing shipping and handling weight. Toppers cases can be shipped FedEx or UPS, or checked in as airline luggage.

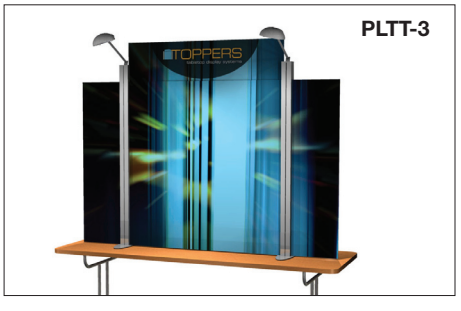

TOPPERS

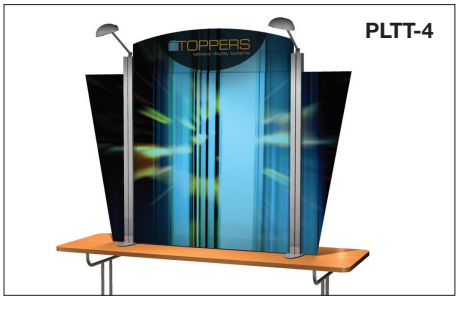

All Toppers packages include Octanorm Frame, Center Graphic, Header and Wing graphics, (2) 150 watt Halogen Lights, 5PCC-02 case and QuickStart Instructions.

ALUMALITE CLASSIC

OCTANORM INSIDE

Alumalite is the portable modular display system that raises your brand image while lowering your shipping and install/dismantle costs. An entire 10' Alumalite system can be assembled quickly and easily, and weighs less than 200 lbs. with cases. An incredible 81" wide by 84" high central graphics area blocks the view of whatever is behind you. Graphics are available in your choice of either dye sublimation printed tension fabric or roll on graphic mural. Choose from three available canopy shapes: Wave, Arch or Straight, in dozens of colors at no additional charge. Wings are available in frosted plex, standard laminates or sintra. The optional counter is available as an attached or free-standing unit, and features room for a computer workstation, removable shelving and lockable storage. Rental packages available!

FABRIC COLORS

We offer the following 54 FRONTRUNNER™ or PRELUDE™ fabric color options for Pop-up displays, Case-to-table conversion kits, UltraForm counters and Multiconnect panel systems. Use the color names below when placing your order. Same or next day shipping on pop-ups is available for **Imperial, Silver** and **Coal** fabric colors only. All orders for same day shipping must be placed before 10:00 AM PST.

STANDARD LAMINATE COLORS

Choose from the following 12 standard laminates for panel system, and hundreds of custom laminate colors available which may incur an upcharge and extend lead time.

FILE PREP GUIDELINES

We DO NOT accept files submitted in Quark or InDesign. Please create all layouts as one document, (do not separate the designs panel by panel). Whenever possible, please include a low res JPEG or PDF for proofing.

Photoshop 6, 7 or CS

This is the preferred application for supplying high resolution raster images. All files submitted as a Photoshop file should be at a 100% (full scale), in CMYK mode, 125-150dpi (dots per inch), or half size at 250-300dpi. Work in proportion if graphic size is larger than art board size. For example if graphic is 30 x 90 , work half size at 15 x 45 . Rasterized font layers then save as a flattened tiff file with LZW compression (this window appears when you save your document). Please include the file extension in the name.

Illustrator 8, 9, 10 or CS

This is the preferred application for supplying layouts and vector art with maximum compatibility and flexibility. Please supply all Illustrator files in CMYK mode. All text MUST be converted into outlines. The file should be to scale; half scale is also acceptable. Provide all logos and text within the application wherever possible Please include the file extension in the name.

Graphics Color & Proofs

Unless a printed proof is requested and/or is provided, you waive the right to object to the colors printed. There will be no guarantee that colors will be printed to your expectations. Remember, since all monitors are not calibrated alike, we have nothing to compare your digital file to. Our output devices are profiled to match the electronic file, yet this is not the case with most monitors and color copiers. Critical Pantone colors should be called out if your job is color sensitive. Remember, a PDF proof only provides us a guide as to ensure all the elements are present, fonts are correct, and so forth. PDF is not used to color match. A suggested method is to call out critical colors and save your ICC profiles along with the file.

Please note: Printing in large format does not ensure 100% color accuracy. Colors and photos will print an approximate 95% accurate. We print in CMYK ONLY. Art Submissions with specific Pantone Color call out's will automatically be converted to CMYK. If you require any specific color to be matched, please include a match print, or previously printed media such as a brochure, business card or any printed sample with your desired color. We will make an effort to match your specified color. Since we print in CMYK and not in spot PMS colors, the final color printed may not exactly match the sample(s) provided.

WARRANTIES

Bannerstands are backed with a Limited Lifetime Warranty that all bannerstand hardware will be free from physical defects in materials or workmanship under normal use by the original owner.

Rotomolded Cases are backed with a Limited Lifetime Warranty that all Rotomolded Cases will be free from physical defects in materials or workmanship under normal use by the original owner.
