POP-UP DISPLAYS | page 4-10

Fabric and graphic pop-ups set up quickly and easily, and are perfect for making a good impression on a budget. Choose from 8ft and 10ft pop-ups featuring straight, curved, or wave profiles or explore our 20ft displays with gullwing, serpentine, curve-straight, straight-curve-straight footprints.

POP-UP DISPLAYS

Fabric pop-up displays set up quickly and easily, and are perfect for making a good impression on a budget. All of our pop-ups are made in the USA and come with a limited lifetime frame warranty. These display packages come with everything you need: a sturdy display frame, panels in your choice of 54 fabric colors, and a rugged, lightweight rotomolded case with a podium conversion kit. Many packages also include UL approved light kits. *Package shown with optional monitor mount.*

***Economy Packages** offer curved profiles, and are available in both floor-standing and tabletop models. Economy frames are constructed from 8mm drawn aluminum, and come with a limited lifetime warranty.

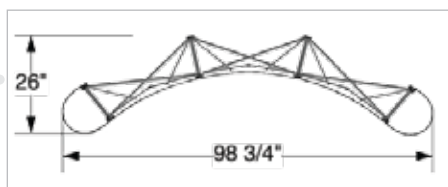

Our **Premium Packages** offer a sturdier frame that is constructed of both 8mm and 13mm drawn aluminum. These floor standing models are available in a variety of shapes and sizes, including curved, straight and wave.

Graphic panels can be added to any of our packages below.

Please refer to page 9 to see our packages that come pre configured with graphic panels.

4400 w/ optional conversion

4200 A/B with optional conversion

4600 ALL-IN-ONE CASE TOP

This durable rotomolded case provides the ultimate protection for fabric and graphic panels, keeping your exhibit safe and clean show after show. Outfitted with integrated wheels and handle, the 4600 provides the ultimate ease of handling and portability for your exhibit, saving on transportation costs. Convert your 4600 case to a table using fabric or graphic wrap-around skirt options and a selection of hinged wood tops that pack inside the case with Economy Pop Up packages (will not fit inside case with Premium frames).

*Economy Package **Shown with optional graphics case wrap and hinged wood top

PL16-G4

GRAPHIC POP-UP DISPLAYS

Customize your pop-up display with high-quality graphics. We print all of our graphic panels in house on state-of-the-art HP printers, and then assemble every unit for quality control before it ships. You can be assured that everything fits perfectly, because we know that the last thing you need to worry about on the show floor is your exhibit.

TOPPERS

Big display impact in a very small space...

Toppers broadcast your message in a big way. These ultramodern tabletop systems are built of aircraft grade aluminum, and feature a large footprint for stability. Each Toppers display comes complete with the frame, graphics, headers and wings, lights and a wheeled rotomolded case. Toppers set-up and break down in minutes, and everything packs neatly inside the foam-fitted rotomolded wheeled case. Toppers are made in the USA, and are backed by a limited lifetime frame warranty.

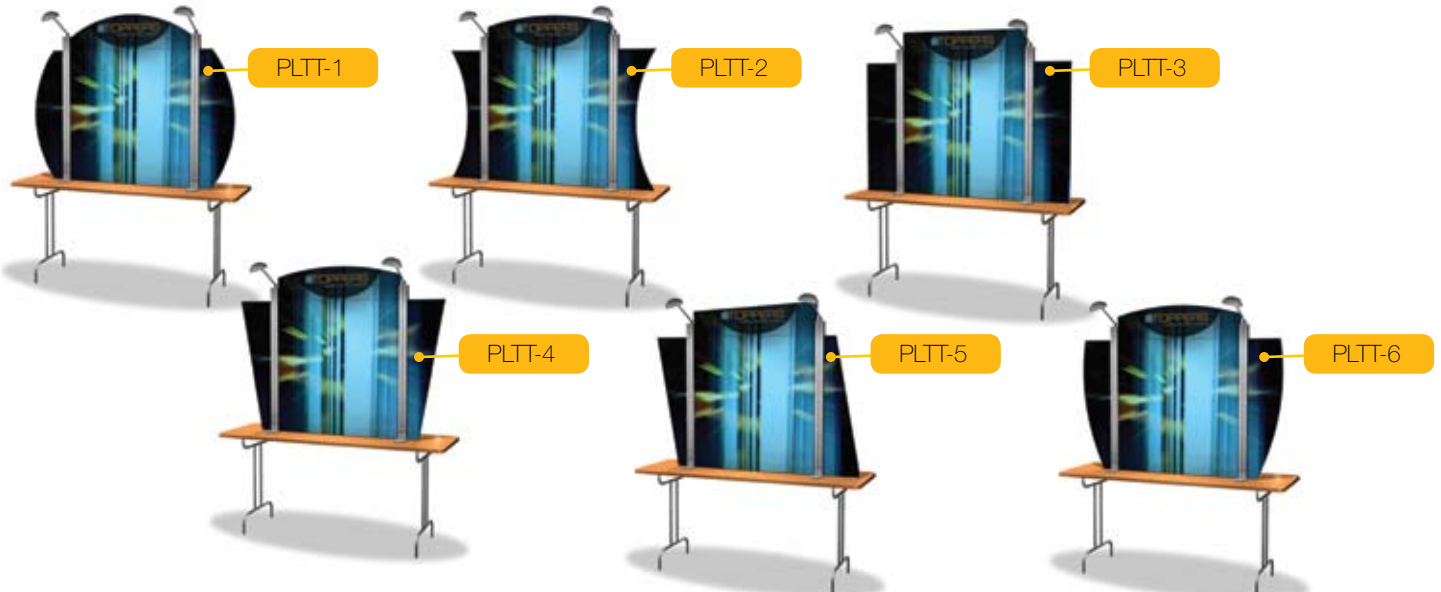

Packing System

Every Toppers display comes complete with a rotomolded, wheeled case for easy transportation. Each part of your Toppers has a unique location within the custom foam fitted case, to make finding each part a snap. The lightweight, heavy-duty case will protect your Topper while reducing shipping and handling weight. Toppers cases can be shipped FedEx or UPS, or checked in as airline luggage.

TOPPERS

All Toppers packages include Octanorm Frame, Center Graphic, Header and Wing graphic, (2) 200watt Halogen Lights, 5PCC-02 case and QuickStart Instructions.

PLP-12

FABRIC PANEL SYSTEMS

Our panel systems are engineered to take anything the most grueling trade show schedule can dish out. Reinforced hardwood frames covered in your choice of fabric provide maximum durability while the patented hinged panels let you create unique custom shapes for dramatic trade show booth effects that are easy to set up and reconfigure.

Our trade show panel systems let you add bridges, towers and backlit headers that are sure to get you noticed on the trade show floor. A huge selection of trade show booth accessories are available to tailor your trade show exhibit to meet your unique marketing needs including lightboxes, product display cases, monitor stands, pull out keyboard shelves and more.

Shown with optional graphics.

ALUMALITE CLASSIC

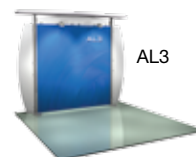

Alumalite is the portable modular display system that raises your brand image while lowering your shipping and install/dismantle costs. An entire Alumalite system can be assembled quickly and easily, and weighs less than 200 lbs. with cases. An incredible 81" wide by 84" high central graphics area blocks the view of whatever is behind you. Graphics are available in your choice of either dye sublimation printed tension fabric or roll on graphic mural. Choose from three available canopy shapes: Wave, Arch or Straight, in three colors: Snow, Coal or Silver. Wings are available in frosted plex, standard laminates or custom laminates. The optional counter is available as an attached or free-standing unit, and features room for a computer workstation, removable shelving and lockable storage. **Rental packages available!**

We offer the following 54 color options for your trade show products. Use the color names below when placing your order. Next day shipping is available for **Imperial**, **Silver** and **Coal** fabric colors only. All next day requests must be made before 10:00 AM PST.

LAMINATE COLORS

FILE PREP GUIDELINES

We **DO NOT** accept files submitted in Quark or InDesign. Please create all layouts as one document, (do not separate the designs panel by panel). Whenever possible, please include a low res JPEG or PDF for proofing.

Photoshop 6, 7 or CS

This is the preferred application for supplying high resolution raster images. All files submitted as a Photoshop file should be at a 100% (full scale), in CMYK mode, 125-150dpi (dots per inch), or half size at 250-300dpi. Work in proportion if graphic size is larger than art board size. For example if graphic is 30 x 90 , work half size at 15 x 45 . Rasterized font layers then save as a flattened tiff file with LZW compression (this window appears when you save your document). Please include the file extension in the name.

Illustrator 8, 9, 10 or CS

This is the preferred application for supplying layouts and vector art with maximum compatibility and flexibility. Please supply all Illustrator files in CMYK mode. All text **MUST** be converted into outlines. The file should be to scale; half scale is also acceptable. Provide all logos and text within the application wherever possible. Please include the file extension in the name.

Graphics Color & Proofs

Unless a printed proof is requested and/or is provided, you waive the right to object to the colors printed. There will be no guarantee that colors will be printed to your expectations. Remember, since all monitors are not calibrated alike, we have nothing to compare your digital file to. Our output devices are profiled to match the electronic file, yet this is not the case with most monitors and color copiers. Critical Pantone colors should be called out if your job is color sensitive. Remember, a PDF proof only provides us a guide as to ensure all the elements are present, fonts are correct, and so forth. PDF is not used to color match. A suggested method is to call out critical colors and save your ICC profiles along with the file.

Please note: Printing in large format does not ensure 100% color accuracy. Colors and photos will print an approximate 95% accurate. We print in CMYK ONLY. Art Submissions with specific Pantone Color call out's will automatically be converted to CMYK. If you require any specific color to be matched, please include a match print, or previously printed media such as a brochure, business card or any printed sample with your desired color. We will make an effort to match your specified color. Since we print in CMYK and not in spot PMS colors, the final color printed may not exactly match the sample(s) provided.

WARRANTY

Pop-Up Systems

are back with a limited lifetime warranty that all pop up system hardware will be free from physical defects in materials or workmanship under normal use by the original owner.

Fabric and Laminate Panel Systems

are backed with a five-year limited warranty on all panels. This warranty guarantees system panels and components to be free from physical defects in materials and workmanship under normal use by the original owner.

Alumalite Displays

are backed with a lifetime warranty that all Alumalite system hardware will be free from physical defects in materials or workmanship under normal use by the original owner.

Banner Stands

are backed with a ninety day limited warranty that all banner stand hardware will be free from physical defects in materials or workmanship under normal use by the original owner.
